Akai released the XR20 Beat Production Station in 2008, which was a time when hardware drum machines were falling out of favor compared to the versatility offered by software versions. However, the XR20 was designed to be portable enough to appeal to the hip hop and R&B producers of the time thanks to its live capability.

The manual shows a fairly standard graph with all three settings tracing different curves from zero to maximum velocity. This didn't gel with my experience, so I fired up Snoize's trusty MIDI Monitor utility to see what was happening. In addition to all inputs and outputs, the XR20's rear panel also accommodates its main volume control.
