Public policy is the study of what governments do, and do not do. More specifically, it is the investigation of what policies are and how they perform (policy analysis) as well as how they come into being and are implemented (policy process). Comparative public policy is therefore simply the use of comparative approaches to public policy ...

The subfield of comparative public policy has experienced consistent development in the last half a century. Public policy scholars have stressed the importance of and need for 'comparing' since the 1970s—including comparing different policies, inputs, outputs, and outcomes across institutional settings (Cyr and DeLeon 1975; Leichter 1977; Feldman 1978; Rose 1991).
