The term "industrial revolution" was used to describe the period before the 1830s, but modern historians increasingly call this period the "first industrial revolution."

This period was characterized by developments in textiles, iron, and steam (led by Britain) to differentiate it from

1.The agricultural revolution began long before the eighteenth century. New food crops, many of them from the Americas, and new forage crops produced more food per acre and allowed farmers to raise more cattle for meat and milk. 2.Only wealthy landowners could afford to invest in new crops and new farming methods.
