Welcome to the Whitman College Biology Department's Virtual Pig Dissection (VPD)! This site is designed as a supplement to laboratory dissections exploring introductory mammalian

anatomy and physiology — it is basic and many details have been omitted for clarity.

## **Virtual Fetal Pig Dissection | Whitman College**

The dissection of the fetal pig in the laboratory is important because pigs and humans have the same level of metabolism and have similar organs and systems. Also, fetal pigs are a byproduct of the pork food industry so they aren't raised for dissection purposes, and they are relatively inexpensive.

Enjoy anywhere, anytime access to Flinn Digital Dissection Labs! These dissection study tools can be used as prelab practice, postlab quizzing or even as dissection alternatives. Engaging content and interactive tools reinforce animal anatomy and dissection technique. 6 labs are available individually or as a convenient bundle. Purchase includes digital access for 1 year.

## **Flinn Digital Dissection Labs: Pig, 1-Year Access**

Fetal pigs are a viable alternative for those concerned about animals used for dissection because fetal pigs were never "born" and did not die for purposes of dissection. Our fetal pigs are embalmed with formalin then placed in no-smell solution called Nebanol. We offer a variety of sizes and options.
