### Nikon D90 Manual Focus Lens

You don't need to focus and recompose; the D90 has sensors all over. If you prefer to force the D90 to focus with just one specific sensor, go to MENU > Custom Setting Menu > a Autofocus > a1 AF-area mode and select Single Point. You can force the D90 into AF-S focus mode with the top switch, but you don't need to.

### Nikon D90 AF Settings - Ken Rockwell

As with all Nikon DSLRs, you'll need recent lenses to support the full focusing and metering modes. There's a compatibility chart in the D90 manual or specification sheets, but just briefly you'll need a Type G or D AF (including AF-S and AF-I) Nikkor to support all functions including the most sophisticated 3D Colour Matrix Metering II system.

the Nikon D90, but this alone won't get great pictures. To get great photos you still need to get yourself to the right place at the right time and point the camera in the right direction, which is a lot harder than mastering the D90. Right out of the box at default settings the D90 does a great job, but you need

Re: Nikon D 90 Manual Focus You could just re-focus by pressing the shutter button half-way down. If you want to work with a lens that does that, it has to be an "AF-S" lens. This means the focusing motor is in the lens and there is no mechanical coupling between the camera and the lens to prevent you to adjust focus manually without a switch.

To use manual focus, set the camera focus-mode selector and/or the lens focus-mode switch as follows: •... Page 80 The Electronic Rangefinder If the lens has a maximum aperture of f/5.6 or faster, the viewfinder focus indicator can be used to confirm whether the subject in the selected focus point is in focus (the focus point can be selected from any of the 11 focus points).

### **NIKON D90 USER MANUAL Pdf Download | ManualsLib**

No. There are two types of auto focus lenses. One is a mechanical screw drive(AF-D and AF) and the other is electric(AF-S). The D90 can AF both of these type of lenses, where the D40,D60, D3000 and D5000 can only AF the electrical lenses. Manual is as it sounds but only use AIS lens on the D90 Originally posted ages ago.
