U S National Security Law

Sources of law United States Constitution. The United States Constitution grants extensive national security powers to both Congress and the President of the United States. Article I grants Congress authority to "declare War, grant Letters of Marque and Reprisal, and make Rules concerning Captures on Land and Water." Congress is also empowered to "raise and support Armies," and "provide and maintain a Navy."

National Security Law of the United States - Wikipedia

National Security Act, U.S. military- and foreign-policy reform legislation, signed into law by Pres. Harry S. Truman in July 1947, which reorganized the structure of the U.S. armed forces following World War II.

National Security Act | United States [1947] | Britannica

The National Security Act of 1947 was a law enacting major restructuring of the United States government's military and intelligence agencies following World War II. The majority of the provisions of the Act took effect on September 18, 1947, the day after the Senate confirmed James Forrestal as the first Secretary of Defense.
